— TECHNICAL & COMMERCIAL PROPOSAL · JUNE 2026

An Agentic Procurement Layer for **Adani Group**

An AI-native sourcing, vendor-onboarding and spend-intelligence layer that sits on top of your Ariba, MDG and SAP estate — phased by module, priced in USD, structured for a 3-year enterprise commitment.

PREPARED FOR	PREPARED BY	DATE	VALIDITY	PHASE 1 SCOPE
AIIL / Adani Group	Aerchain	June 2026	30 days from date	Modules 1–3

01 SCOPE & COVERAGE

What This **Proposal Covers**

This commercial structure maps directly to Adani's prioritised procurement transformation agenda — vendor onboarding as the initial wedge, agentic sourcing as the strategic layer, with enterprise integration as the connective tissue.

— PROPOSAL COVERAGE — TWO CORE COMMITMENTS

1. **Platform Subscription (SaaS)** covering Modules 1–3: Vendor Onboarding & Management, Intake & Orchestration, and Sourcing & Negotiation. A single group-wide enterprise licence — unlimited users, all 24 business units, price-locked for 3 years.
2. **Implementation & Integration Services** to deploy all three modules within the agreed project timeline. Includes configuration, SAP S/4HANA / Ariba / MDG integration, UAT development, change management, training, and 90-day post-go-live hypercare. Milestone-linked payments — no upfront exposure beyond 20% of contract value.

- ● Module 1 — Vendor Onboarding & Management
- ● Module 2 — Intake & Orchestration
- ● Module 3 — Sourcing & Negotiation
- ● Enterprise Integration Program (SAP / Ariba / MDG)
- ● Module 4 — P2P Automation — Future Scope

Phase 1 landing scope (per scoping discussions): Vendor onboarding with AI-assisted due diligence as the wedge + autonomous sourcing for tactical and tail spend + strategic sourcing orchestration over existing Ariba/SAP/MDG estate. Integration is a dedicated program line — not bundled into platform fees.

02 MODULE STRUCTURE

Module-by-Module Scope & Capabilities

Each module is independently licensable. Phase 1 covers Modules 1–3. Module 4 (P2P Automation) is scoped as a committed future expansion lane — no pricing in this proposal; separate terms at activation.

1 Vendor Onboarding & Management

Includes Vendor Risk & TPDD · Vendor 360 · Performance Management

✓ PHASE 1

• ONBOARDING & REGISTRATION

AI-assisted vendor onboarding portal

- Buyer-initiated & self-registration
- AI doc extraction
- GST/MSME portal matching
- Configurable questionnaire
- Re-certification workflows
- ≥70% cycle-time improvement

• SUPPLIER MANAGEMENT

Vendor 360 · Segmentation · AVL

- Digital AVL (real-time)
- Strategic / Essential / Transactional segmentation
- Block / unblock workflows
- Blacklist propagation to Ariba/MDG
- Supplier satisfaction survey

• VENDOR RISK & TPDD — BUNDLED

AI due diligence + risk scoring engine

- Sanctions & adverse media
- Financial & legal risk
- Per-BU risk appetite config
- API integration to existing TPDD partners (Moody's / D&B)

• PERFORMANCE & CAPA

VPE scorecards · CAPA lifecycle

- GRN/SES-driven quantitative scoring
- CAPA co-creation & tracking
- Auto-triggered evaluations
- Sourcing block on poor score

PLATFORM FEE (SAAS / YR)	IMPLEMENTATION (ONE-TIME)	PHASE
$190,000	$150,000	Phase 1

2 Intake & Orchestration

Enterprise-wide request capture · AI classification · Policy-based routing · PR-to-PO tracker

✓ PHASE 1

• REQUEST CAPTURE & CLASSIFICATION

Enterprise co-pilot for 15,000 business users

- Sourcing, contract, onboarding & invoice requests
- AI auto-classification
- Zero procurement training for requesters
- Policy-based routing
- PR-to-PO tracker

• SPEND INSIGHTS LAYER

Live market intelligence & analytics

- Category dashboards with live market indices
- Steel with contract-lock signals
- Ocean freight benchmarked with disruption monitor
- Lubricants priced off crude / base-oil formulas
- Geopolitical supply-risk analysis

• ORCHESTRATION & GOVERNANCE

Multi-BU workflow engine

- RBAC & dimension-based scoping
- Separate authentication for shared-service entities
- DoA routing & NFA linkage
- Hard & soft guardrails per category / BU
- Immutable audit ledger on every agent decision

• ATLAS COPILOT

Conversational procurement assistant

- Natural-language intake
- Guided buying via conversational interface
- Spend analytics via natural language query

PLATFORM FEE (SAAS / YR)	IMPLEMENTATION (ONE-TIME)	PHASE
$332,500	$262,500	Phase 1

3 Sourcing & Negotiation

Strategic Sourcing (S2C) · Autonomous Sourcing · e-Auction Orchestration · NFA · Enterprise Integration

✓ PHASE 1

• STRATEGIC SOURCING (S2C)

RFx · Two-envelope · TBER · NFA

- RFI / RFP / RFQ engine
- Two-envelope sealed bidding
- AI Technical Bid Evaluation (TBER)
- Commercial Comparative Statement
- e-Auction amenability framework
- NFA preparation & DoA routing
- Multi-BU / MoU NFA linkage

• AUTONOMOUS SOURCING (AGENTIC)

AI-run tactical & tail spend events

- Vague intake → full RFQ auto-built
- AI vendor selection
- Multi-round negotiation agent
- Should-cost with live indices
- Award write-back to Ariba/SAP
- Configurable autonomy per category
- Human-in-the-loop → touchless over time

• ENTERPRISE INTEGRATION PROGRAM

SAP S/4HANA · Ariba · MDG · BTP · ServiceNow

- PR / PO / WBS / Cost Centre
- Budget check & GRN/SES feed
- Multi-instance (14+18 SAP instances)
- Ariba sourcing project sync
- MDG supplier master & block/unblock propagation
- NFA finalisation / e-sign (BTP)
- ServiceNow ticket handoffs · CLM contract handoff

• NEGOTIATION & AWARD

Multi-round autonomous negotiation

- Discovery → benchmark pressure → target push
- Transparent should-cost model
- Natural-language award scenarios
- PO written back to Ariba & SAP S/4HANA via API

PLATFORM FEE (SAAS / YR)	IMPLEMENTATION (ONE-TIME)	PHASE
$427,500	$337,500	Phase 1

4 P2P Automation

PR-to-PO · Invoice OCR · 2/3-way match · AP automation

FUTURE SCOPE — SEPARATE TERMS

Future Scope — Separate Terms. P2P Automation is held as a committed expansion lane. Per scoping discussions, the initial focus is upstream procurement (Modules 1–3). Aerchain carries full P2P + AP capability (OCR, 2/3-way match, dispute management, payment release). Pricing to be agreed at activation — no dollar amounts are committed in this proposal for Module 4.

• PURCHASE-TO-PAY

- PO lifecycle & acknowledgment
- GRN confirmation
- 3-way match
- Dispute management

• AP / INVOICE AUTOMATION

- Invoice OCR & extraction
- 2-way / 3-way match
- Exception handling
- Payment release workflow

03 PRICING OPTIONS

Two **Commercial Structures**

All pricing is in USD. Option A is the recommended enterprise bundle — a single flat commercial covering all three modules, price-locked for 3 years. Option B is a module-by-module structure at a 20% premium on platform fees.

OPTION A — RECOMMENDED

Enterprise Bundle

Full Modules 1–3 as a single enterprise commitment. Unlimited users, all 24 BUs. Price fixed for 3 years — no annual increase until Year 4.

Platform Subscription (SaaS)	$950,000 / yr
Implementation & Integration (one-time)	$750,000
Year 1 Total	**$1,700,000**
Year 2 (Platform only)	$950,000
Year 3 (Platform only)	$950,000
3-Year Total	**$3,600,000**

Price fixed at $950,000/yr for Years 1–3. From Year 4: 10% escalation per year.

OPTION B

Module-by-Module

Each module licensed independently at a 20% premium on platform fees. Same implementation cost. Flexibility to activate modules at different times.

Platform Subscription (SaaS)	$1,140,000 / yr
Implementation & Integration (one-time)	$750,000
Year 1 Total	**$1,890,000**
Year 2 (Platform only)	$1,140,000
Year 3 (Platform only)	$1,140,000
3-Year Total	**$4,170,000**

Option B = $950K platform × 1.20 = $1,140,000/yr. No price lock — subject to standard 10% per year from Year 2.

Year 4+ Escalation (Option A only): The enterprise bundle price of $950,000/year is fixed for Years 1, 2, and 3 with zero escalation. Beginning Year 4, the platform fee increases by 10% per annum on the prevailing rate. This provides full cost certainty across the initial 3-year term.

04 MODULE PRICING DETAIL

Module-by-Module Investment Breakdown

Full transparency on what each module costs. Platform fees are annual SaaS. Implementation is one-time. Figures reflect the Option A enterprise bundle allocation (2:3.5:4.5 ratio across Modules 1–3).

MODULE	CAPABILITY HIGHLIGHTS	PLATFORM FEE (SAAS / YR)	IMPLEMENTATION (ONE-TIME)	PHASE
Module 1 Vendor Onboarding & Management	AI-assisted registration portal · GST/MSME validation · Vendor Risk & TPDD (bundled) · Vendor 360 · AVL · Segmentation · Block/unblock · Blacklist propagation · CAPA lifecycle · VPE scorecards	$190,000	$150,000	PHASE 1
Module 2 Intake & Orchestration	Enterprise co-pilot for 15,000 users · AI auto-classification · Policy-based routing · PR-to-PO tracker · Multi-BU orchestration · DoA routing · Spend insights with live market indices · Atlas conversational agent	$332,500	$262,500	PHASE 1
Module 3 Sourcing & Negotiation	Strategic Sourcing: RFx, two-envelope, TBER, NFA, e-Auction · Autonomous Sourcing: AI-run events, multi-round negotiation, should-cost · Award write-back to Ariba/SAP · Enterprise Integration: SAP S/4HANA (14+18 instances), Ariba, MDG, BTP, ServiceNow, CLM	$427,500	$337,500	PHASE 1
Module 4 P2P Automation	PO lifecycle · GRN confirmation · 3-way match · Invoice OCR · 2/3-way match · Exception handling · Dispute management · Payment release workflows	Future Scope	Future Scope	FUTURE
Phase 1 Total Modules 1 + 2 + 3	Year 1 = Platform + Implementation. Years 2–3 = Platform only (price-locked under Option A).	$950,000	$750,000	

OPTION A — ENTERPRISE BUNDLE · YEAR 1 INVESTMENT SUMMARY

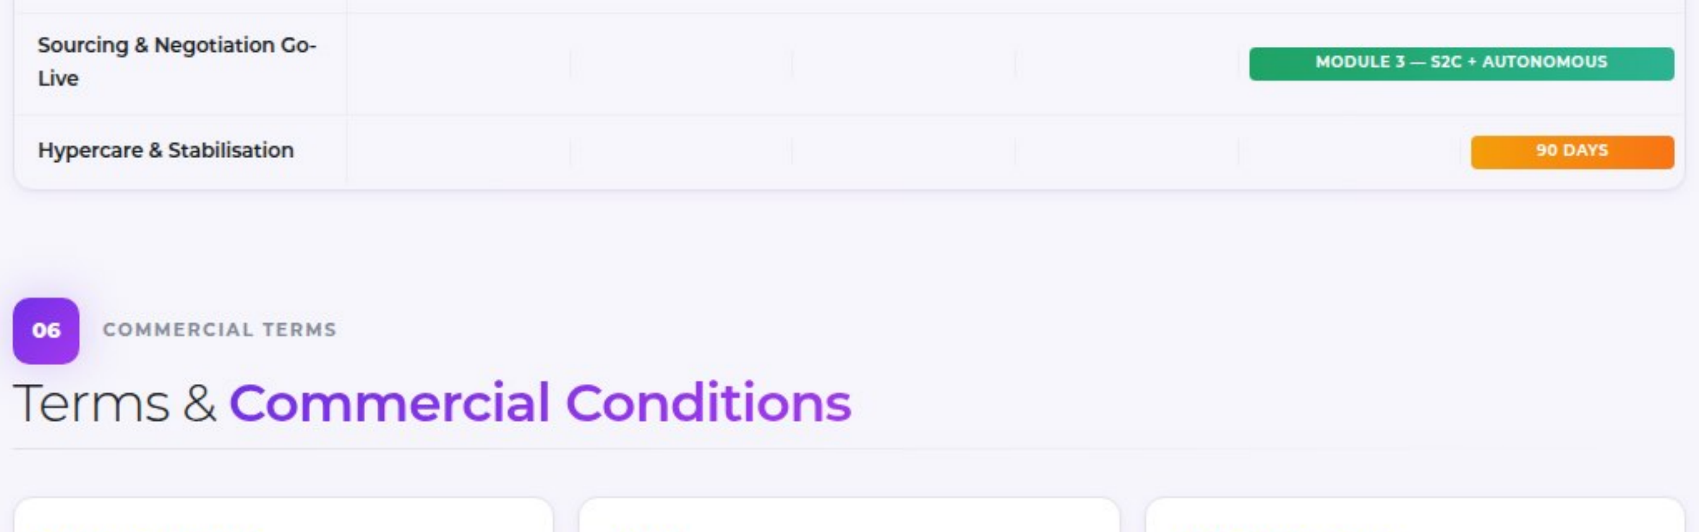
PLATFORM SUBSCRIPTION (SAAS)	IMPLEMENTATION & INTEGRATION	YEAR 1 TOTAL INVESTMENT
$950,000 Annual · Modules 1–3 · Unlimited users	**$750,000** One-time · Milestone-linked	**$1,700,000** Fixed 3 years · 10% escalation from Year 4

Implementation note: 90-day post-go-live hypercare included in Year 1 for all Phase 1 modules. Change management, UAT scenario development, and user enablement materials are in-scope. Payments are milestone-linked — detailed milestone schedule available on request. No upfront payment exceeding 20% of contract value.

05 DELIVERY TIMELINE

Phase 1 **Implementation Plan**

Wave 1 lands on 2–4 SAP instances and Ariba. Full estate rollout in Wave 2–3 as integration confidence is established. Recommendation: begin with a contained Vendor Onboarding pilot on the highest-pain business unit, then expand to intake orchestration and autonomous sourcing.



06 COMMERCIAL TERMS

Terms & **Commercial Conditions**

PAYMENT STRUCTURE

Deliverable-Linked Milestones

All payments are linked to defined project milestones — not time-based. Detailed milestone schedule provided at SOW execution. No upfront payment exceeding 20% of contract value.

BILLING

Annual, from Kick-Off Date

Annual subscription billed in advance from project kick-off. Implementation billed in milestone tranches. Subscription tenure commences from kick-off date. Net 30 payment terms.

ENGAGEMENT SCOPE

Design, Configure & Implement

Full implementation scope: design, configuration, integration, UAT scenario development, change management & training, and 90-day post-go-live hypercare. No third-party outsourcing — all resources on Aerchain direct payroll.

PRICE LOCK

3 Years Fixed, 10% Escalation Year 4+

Option A platform fee of $950,000/yr is fixed for the 3-year term with zero escalation. From Year 4, a 10% per annum escalation applies on the prevailing rate. No mid-term renegotiation.

INTEGRATION WARRANTY

12-Month Integration SLA

All integration connectors (SAP / Ariba / MDG) carry a 12-month warranty from go-live. Certified SAP connectors in use — no custom code on Adani's systems. Front-end configurable, no back-end dev required.

P2P EXPANSION LANE

Module 4 — Future Scope

P2P Automation is a committed future expansion lane with separate commercial terms agreed at activation. No pricing committed in this proposal. Aerchain carries full P2P + AP capability ready to deploy.

ADD-ON SERVICES

Rate-Carded Add-Ons

Per-additional-SAP-instance onboarding beyond Wave 1: $45K/instance. Extended hypercare: $28K/month. Additional training sessions: $5K/session. Change requests charged at T&M rate card via signed Change Order.

VALIDITY

30 Days from Date of Proposal

This commercial structure is valid for 30 days. Aerchain reserves the right to revise pricing after expiry, particularly on integration scope given SAP instance count trajectory (14+18).

CONFIDENTIALITY

Strictly Confidential — NDA Active

NDA and GTC are signed. This document is for internal circulation within AIIL / Adani Group procurement leadership only. Not to be shared with third parties without Aerchain's prior written consent.

07 VALUE & NEXT STEPS

The **Economics & Path Forward**

ADDRESSABLE VALUE

~$5B Tactical + Tail Spend

Phase 1 wedge of the $20B+ Ariba spine. A 2–3% efficiency gain is $100–150M/year — against a roughly $950K annual fee. A 1% improvement across the full $20B is $200M.

VENDOR ONBOARDING

≥70% faster cycle time

Committed improvement on current baseline — collapsing a slow, multi-owner, multi-system process into a single governed flow with AI extraction and validation.

Agreed next steps: Live demonstration on Adani data — within two weeks of scoping confirmation. Integration architecture document (Ariba / SAP / MDG layered model) available immediately. Should-cost challenge — share a real awarded project (BOQ + final cost) and Aerchain will return an AI-generated estimate for comparison. Phase 1 deployment commences within Wave 1 window of signature.
